

PERFORMANCE OVERVIEW

skate insole

All of our "S" skate specific models feature our new premium skate insole specially designed for impact support.

Features:

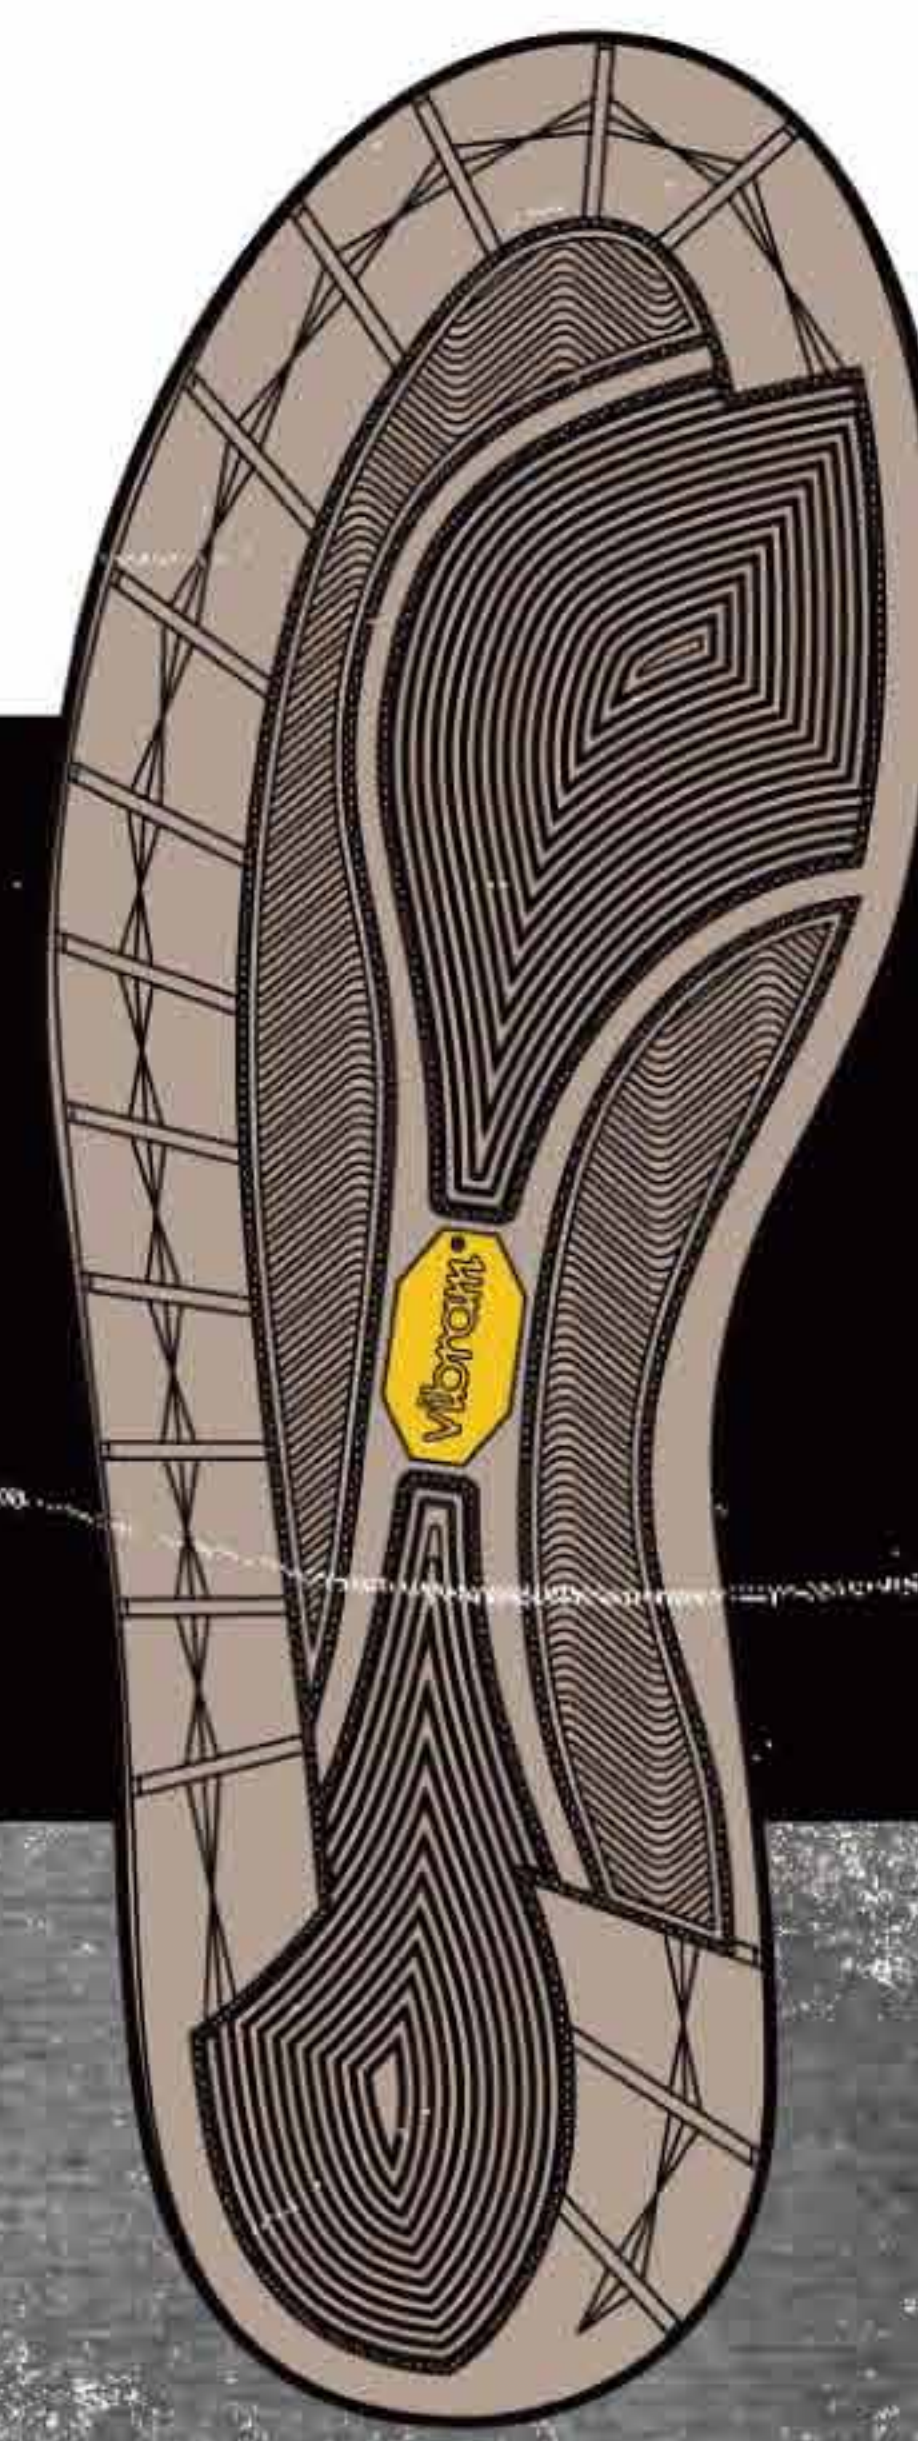

- Dual Density Construction
- Heel Gel for Added Cushioning

sticky-icky

All of our "S" skate specific models feature our Stick-icky rubber compound in the forefoot area for maximum grip and board control.

Stick-icky is only currently available on our vulcanized construction.

vibram

Ipah continues to offer the exclusive Vibram™ Imprint outsole on select models.

Features:

- Multi-Grip Rubber Compound
- Soft and Flexible Outsole
- Tight Radius Outsole Edge

FIT AND MATERIALS

quality and durability

We strive to use only the best materials and construction methods available to ensure each and every pair of shoes we make represents a high benchmark of quality. Ipah shoes are team tested and held to the highest durability standards that modern day skateboarding demands.

dwr (Durable Water Repellent)

A water-resistant coating used to prevent the outer layer of fabric from becoming saturated with water.

comfort and fit

Comfort is an aspect of footwear where we don't compromise. New features such as strobelasted construction, EVA footbeds, and an updated slimmer last for a more contoured fit are a few examples of our ongoing commitment to make comfortable shoes that fit.

vegan

Ipah continues to offer a range of footwear that uses no animal byproducts. Durable materials such as hemp and organic cotton are used to create an alternative for those who walk the vegan path.

environment

At Ipah, we are committed to causing no unnecessary harm to the environment. We are always looking at ways to refine our process to reduce our impact on the earth. Decisions to use water-based glues on shoes and recycled glueless boxes with soy inks are examples of our commitment to the environment.
